

Help on module irregular\_verb:

NAME

irregular\_verb - English-language verb forms for all but the most simply conjugated verbs.

FILE

c:\users\phoenix\dropbox\nickmontfort-curvedship-814de6e\irregular\_verb.py

DESCRIPTION

Not only irregular verbs (strictly speaking) but also any regular verbs that are not correctly conjugated by the simple algorithm in the Realizer. The Realizer does not do any consonant doubling, so verbs whose consonants are doubled have to be included here.
