# Final Verba

(based on  
Heger  
feedback)

Maybe I'm overreacting  
something's not right  
at the moment, people  
are not doing what they  
should be doing  
I'm not sure if I can do this

## The 10 vision:

1. You are here to work!
2. You are here to work!
3. Today I'm doing it by myself.
4. You're also interested in this one.
5. I'm not sure if I can do this.
6. I will do it even if I have to do it myself.
7. I could be the exception here.
8. You can't really say that.
9. I'm not sure.

## Party scene:

What are they doing?

Then they, however?

Factor of functionality

Could get 10-20 others

out of the

Early on, a big wall?

Designed the machine

everything on my list

then 10 for internet

everything

20 for garden only

everything from

Add things

May project,

you're not sure about

Future system

you're not sure about

but half of the way

new thing is being in

my opinion

will not be able to do more

no more time translates

in fact I used to be a

Have finished as different

from what is possible

Investigate others

argument

everyone would have helped

with

We're here.

Everyone else that helps

Ones ones (squad, etc.)

Someone else can't be created

because of them? maybe

Inspiration? Enthusiasm

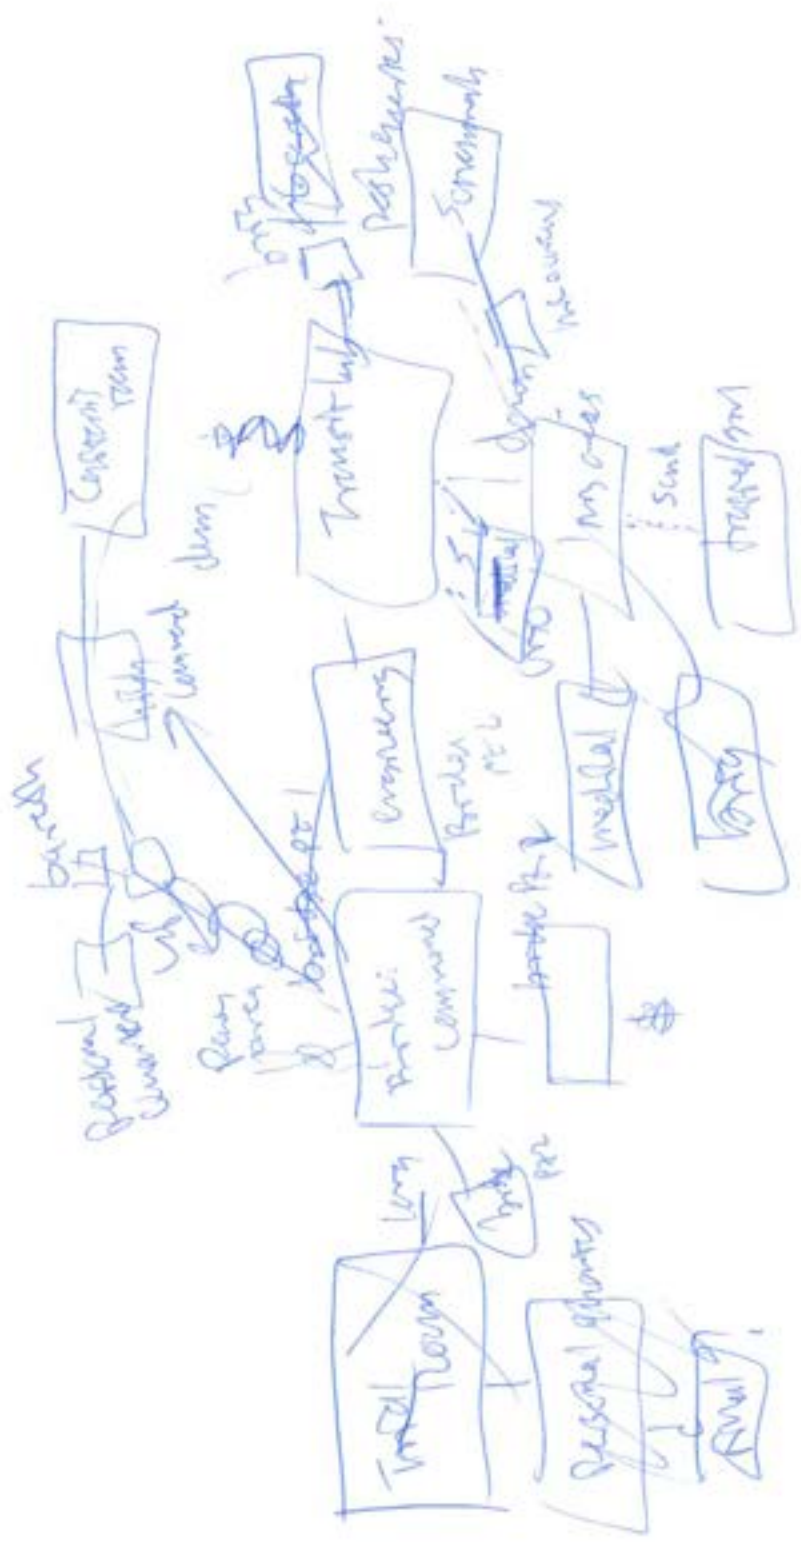

maybe Enthusiasm

A change in the weather

Should we allow death?

The formal or turned in formal

# Base Step

Qreas: max museum which seems like they're stopped

(or just people frozen)

- forest, maybe w/ distant figure but definitely animal (puzzle)

- a tech in w/ a tail w/ an attachment (scanning device, flash/194x, backup before this you see other locus, maybe he looks like a sample)

X - hall of squid w/ (musical)

- Western Saloon w/ (chord)

- a vast stony sky w/ a gravitational puzzle or many things around

u past a level: natural (overexposed) day.

examining gms details: you are part of skeleton crew, woken up for

examining crash? No! Everyone D'oh and can talk but you

are the only one who can travel through. final puzzle is canary

each past (remember that you are from the future from a

puzzle that turns out to be from that person's descendant)

the puzzle that turns out to be from that person's descendant!

You are an engineer on "old" ship dimensional travel puzzle w/ "warp" command or ME 1314 or enter or In

Use present and past

Alternate reality on speaker after way

Speech is vibrant and long in a cool cold style and broken in another and space  
2. Realize it's been three years, not

dimension warping

the brevice is in the past the where was based on your actions in the past, from learning from their mistakes, based on your report. (captain of vessel is your descendant)

only MGS, C/O was, the execution

Each sector should be one of creating if you are, by direct puzzle.

No language puzzle (can be a's technology) (can be modified English)

- Integral puzzle  
- Tell from another way

Messages in future  
Shape and hidden in what pieces, holding you a key. Like Archer, it's from you. Scramble, the puzzle records it for the

that all the unknowns you want to are different to sectors of a lush spaceship

1 Realize

big moments:

# The totem

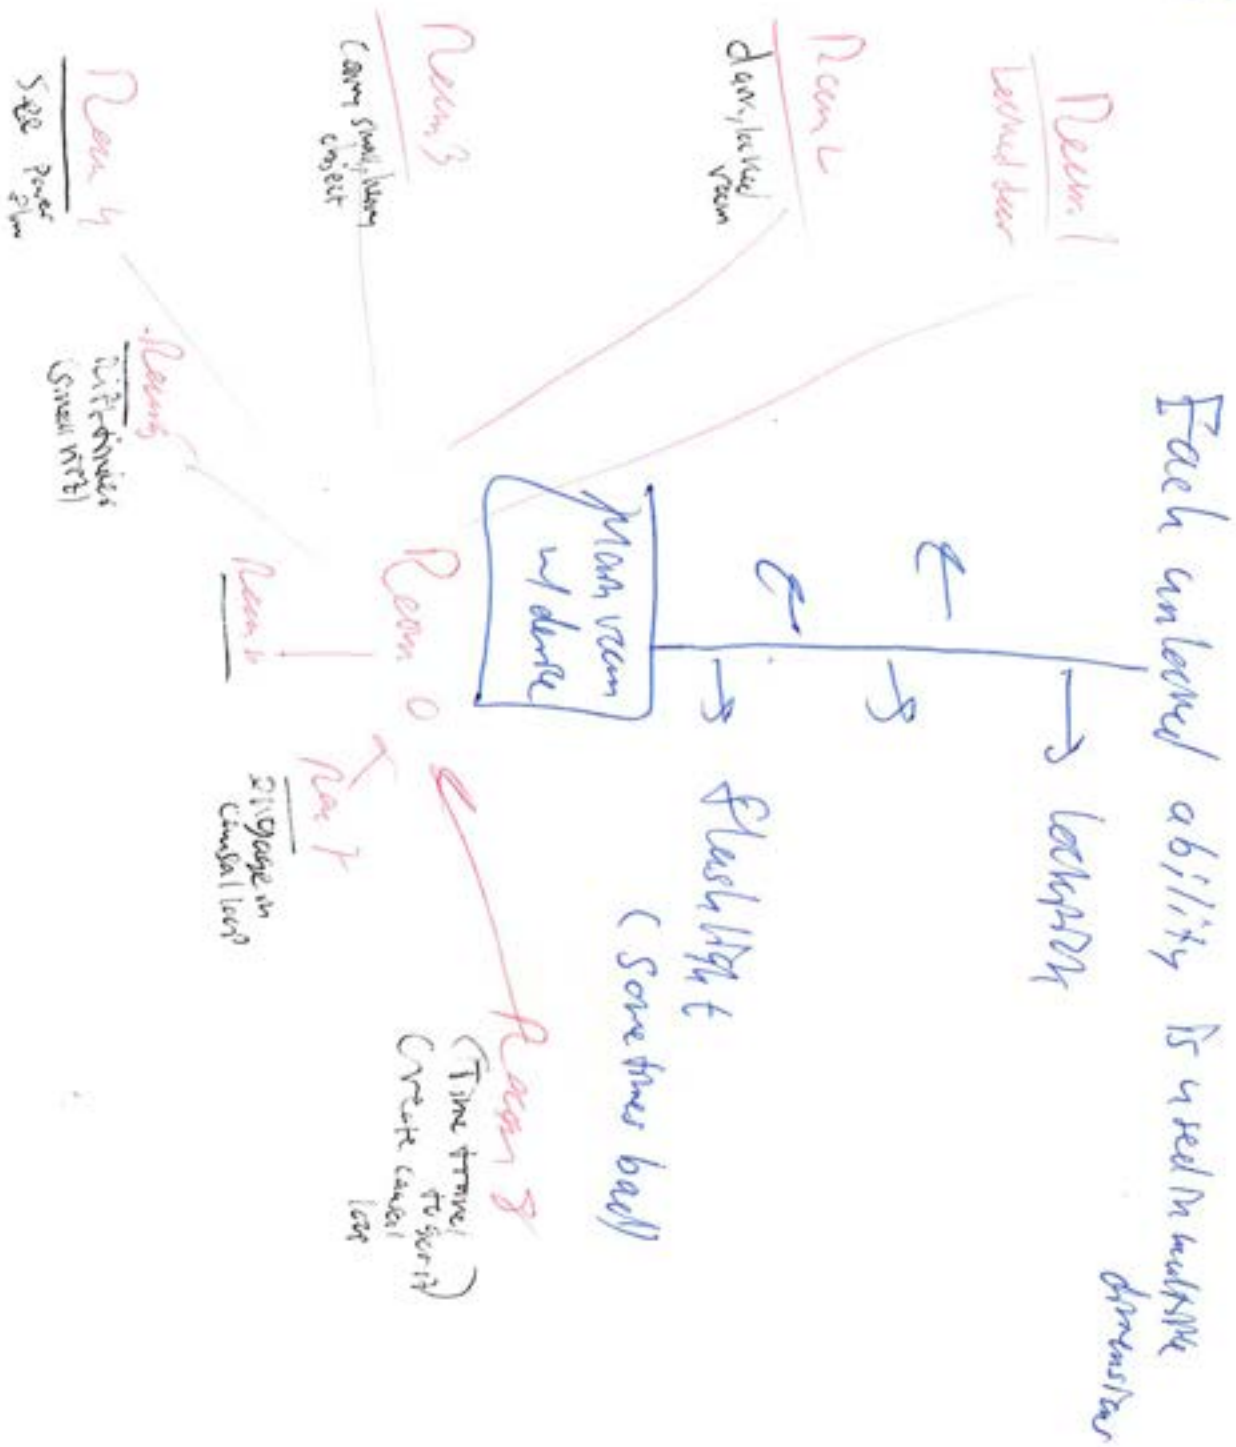

Unique in that most of its puzzles come from other rooms

Its main puzzle is a single-room puzzle about

opening up a very complex machine.

The Accessibility

Corresponds to progress

## Figure types

One motivation, however, remember build complexity (line for the duration or frames or hours) timing and represent the picture itself. Don't really dependent as the initial indicators being used

False use for one day, presented with order

## Extrapolation

Use things set up long ago

System 11 - Uncovered more some error, different result (unexpected behavior thing (collisions) viewed)

## Diagnosis

5 years in coming to a decision

(148)  $\hat{y}_2 = 36$  action

desired is 72

Leaving 108 for

heavy about 16

action particularly

for 50000000

Unfold, retried, unfolded, something else

(complex, world-making)
